ATTN : Chief, St/I/RR [REDACTED] 25X1A9a

SA to Ch/G/RR

Reorganization of FDD Information Reporting

1. The position taken on the Briefing Notes covering the ORR position in regard to the reorganization of FDD Information Reporting is concurred in by the Geographic Research Area.

2. The FDD Reporting program in effect, until recently, has been most satisfactory and we should prefer to have it continue in that form.

3. The new program may not always affect the GRA to the degree that it will affect the ERA but it will result in a reduced adequacy of coverage of items of importance to us.

4. Recognizing that FDD may have a significant manpower problem, the GRA is ready to review the program with the aim of refining it and eliminating any unnecessary reports.
